FIR Reference	Minister's List #	Police Services	2010	2009	2008	2007	2006

NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:

The population figure used in the calculation for crime statistics represents the permanent, year-round population. Our substantial seasonal population (estimated to be nearly equal to the permanent population) is not allowed to be included. This results in potentially extremely misleading statistics for the township.

Total costs mean operating costs as defined in MPMP, plus amortization and interest on long-term debt, less revenue received from other municipalities for tangible capital assets.
 - ¹ As of 2009, the efficiency measures for police services do not include expenses for prisoner transportation or court security since expenses for these services are being uploaded to the Province over a number of years. The efficiency measures for police services align with effectiveness measures based on crime rates.
 - ² Statistics Canada has expanded the definition of violent crime. Therefore, prior years are not comparable unless restated.
