

Tay Valley Township's Official Plan aims to:

**protect the natural and built resources of the Township resources
and recognize the environmental, economic and other values of these resources**

Both the Official Plan and Zoning By-Law are available at the Township office or online at <http://www.tayvalleytwp.ca/en/resident-services/planning-and-development.asp> - they contain policies and regulations for land use and development planning.

The Zoning By-Law sets out required building sizes and distances from lot lines, water bodies and nearby structures. Where buildings existed before the Zoning By-Law was implemented, there is provision for the exception to be legalized via a **Zoning Amendment** or **Minor Variance**. As well, a **Site Plan Control Agreement** is required for most types of development within 100 metres (328 feet) of a water body, and for all Commercial properties. Properties in Source Water Intake Protection Zones may require a Risk Management Plan (please check with the Planner).

The process for a Zoning Amendment or Minor Variance, as required by provincial law, includes:

- review of your application by the Township Planner and partner agencies
- a public meeting (with 20 days notice) to allow input to the proposed exception by neighbours and relevant agencies
- decision by Council (Zoning Amendment) or Committee of Adjustment (Minor Variance)
- a 20-day appeal period

The table below shows the permitted uses and distance/size provisions for dwellings in various Zones. Setbacks for accessory buildings are sometimes less. More information is in the Zoning By-Law.
