

Tay Valley Township

ANNUAL ACCESSIBILITY STATUS REPORT

2018

EXECUTIVE SUMMARY

The purpose of the *Ontarians with Disabilities Act, 2001, (ODA)* is to improve opportunities for people with disabilities and to provide for their involvement in the identification, removal and prevention of barriers. To this end, the ODA mandates that each Municipality prepare an annual accessibility plan.

In 2005, a second piece of legislation, the *Accessibility for Ontarians with Disabilities Act, 2005, (AODA)* was enacted. Through the AODA, Ontario is working to make the province fully accessible for people with disabilities by 2025. Under the Act, standards have been developed that must be followed to identify, remove and prevent barriers so that people with disabilities have more opportunities to participate in everyday life.

The Accessibility Standard for Customer Service was the first standard to become law. The next four standards – Information and Communications, Employment, Transportation and the Built Environment (buildings and outdoor spaces) – have been combined under one regulation, the Integrated Accessibility Standards Regulation (IASR).

The Integrated Accessibility Standard requires the Municipality to develop a multi-year plan every five years and report on an annual basis on the progress towards meeting the requirements of the Integrated Accessibility Standards Regulation.

Statement of Commitment

The Municipality is committed to treating all people in a way that allows them to maintain their dignity and independence. We believe in integration and equal opportunity. We are committed to meeting the needs of people with disabilities in a timely manner, and shall do so by preventing and removing barriers to accessibility and meeting the accessibility requirements under the *Accessibility for Ontarians with Disabilities Act, 2005*.
